The Charges of feeding
and watering Cattle
recovered from the
owners of Cattle will be
appropriated by the
Pound-Keepers under
Section 17. The rate is
different in different
places, and in some
instances quite inadequate
if the pound Keeper is
expected to provide the
Cattle with sufficient
food and water as
he is bound by Law
to do. After taking into
Consideration the several
proposals made by
the Amildars the District
Magistrate fixes the following
rate viz:—

Camel — — — 0-4-0 "
Buffalo, Horse, Bullock, Ox, Bull, Cow, heifer — 0-1-6 "
Sheep, Goat, Calf, Pig — 0-0-6 "

Charges for feeding and watering Cattle will be levied according to the above rate.

× The pound keepers shall submit reports regarding Cattle impounded to the Amildars who are appointed in this behalf. In the reports they should furnish all the information which is required to be given in the notice to be issued by the Amildars, Viz:—

(a) the number and description of Cattle.
(b) the place where they were seized.
(c) the place where they are impounded.

The practice of sending Cattle to the Head quarters of Talooks to enable Amildars to give a correct description of the Cattle in the notice should be stopped

If

pound keepers give a
detailed description in
their reports, which they
ought to do.

× The Amildars have

Cattle. Ordinarily Cattle
should be sold at the
place where they are im-

it shall be subject to the
approval of the Amildar.

rates one for the [illegible]
for rainy season. The Amildars in
their reports have given different
rates.

5. It has now been unanimously decided after full discussion that there should be two rates of feeding charges for impounded cattle Viz, one a little higher for Municipal Towns and the other for the rural parts. It was also decided that two rates are not necessary for different seasons on the ground that during the rainy season green grass is not easily procurable for sale in the Mofussil Towns and Villages and in consequence impounded cattle are to be fed on paddy straw stored in proper season.

DEPUTY COMMISSIONER'S OFFICE,
MYSORE DISTRICT,

Dated Mysore 15th June 1893.

From

A Rangasami Iyengar Esquire BA BL
Deputy Commissioner,
Mysore District.

To

The Chief Secretary to the Dewan of Mysore,

SIR,

With reference to Proceedings of Government No 14081-91 / R.F. 375-92 dated 20th February last, I have the honor to report that no special rules would appear to have been promulgated for the management of the cattle pounds beyond the provisions of the act I of 1871. The scale of remuneration to be paid to Potails in charge of pounds was fixed at 20 per cent of the receipts in docket No 4698/76 dated 18 November 1873 from the Chief Commissioner to the address of the Commissioner Ashtagram Division. A statement has been appended to the accompanying copy of letter No 917 of 18 ultimo from the

from the Vice President Mysore Munici-
-cipality giving particulars of the
Scale of feeding and watering charges
levied in the case of impounded cattle.
This rate has been in force for several
years past but the authority under
which such rates were fixed is not
forthcoming - There was no uniformity
in the past management of the cattle
pounds - I beg to submit that in
future cattle pounds may be divided
into two classes viz Municipal and
Local Fund Cattle pounds - The Municipal
Cattle pounds should be exclusively
under the management of the Municipal
Boards to which they belong as regards
collection of fines and management
subject of course to the supervision of the
Magisterial authorities as regards
submission of returns and exercise
of the Judicial powers under the act.
The Scale of feeding and watering charges
in the Towns should be higher than in the

Moffusil and the remuneration and the appointment of Pound Keepers may be left to the discretion of the Board subject to the general control of the Deputy Commissioner as President of Municipalities vide Scale in Column 3 of the statement appended.

2- As to the pounds under the control of the Local Fund Board situated in places other than Municipal Towns the rule requiring appointment of Bailiffs may be enforced as far as feasible and the moderate scale of remuneration sanctioned in the late Chief Commissioners docket above quoted may be adopted. The scale of feeding and watering charges provided in Column 5 of the statement may also be adopted experimentally until we are in a position to judge of the adequacy or otherwise of the rules. The surplus proceeds may at present be credited to the District Funds.

3- It may also be provided that Assistant Commissioners in charge of Taluks exercising powers of a Magistrate

~~57~~ 51.

of the 1st. class shall be empowered at the discretion of the Deputy Commissioner and District Magistrate to call for and examine the pound registers, to report upon the conduct of the poundkeepers and in extreme cases to suspend such pound keepers and make arrangements for carrying on their duties subject to the approval of the District Magistrate.

Kadir District Magistrates Office,

From,

The District Magistrate,

To, The Chief Secretary to the
Government of Mysore.

Sir,

In forwarding herewith for information, copy of letter dated 20th Instant, from Mr. R. Allardice, I have the honor to request that you will move the Government for orders under section 12 para 3 of the Cattle Trespass Act, to levy double the fine mentioned in the Scale on cattle impounded in the Pound at Nilemané, as Cattle are habitually allowed to trespass on Coffee lands and thereby cause much damage to the cultivation.

I have the honor to be,
Sir,
Your most obedient Servant.

H H Parker

Milemanè 20: June 1893

To, The Deputy Commissioner
Kadir District.

Sir,

The Amildar of Chitnaghir having informed me that the Government of Mysore is willing to raise the amount of fine leviable on strayed Cattle, from 4 annas to Rupee 1 in places where much damage is done, I have the honor of requesting that the fine may be raised here to one rupee.

Many of the Parahs and some of the Lower Class of Gowdas keep cattle, which they drive out to graze in the morning without sending a herd with them, and these cattle are constantly finding their way into the Coffee lands, where they trample down the young plants, and

eat up all the fallen fruit from the jungle ——————— trees such as Jaq, Goondals, Imango, &c, all of which fruit would become valuable manure, if it was allowed to lie and rot round the Coffee trees. Besides this, the cattle eat the tops of young Coffee trees, and trample down the land that have dug up at much expense.

The owners of the Cattle mentioned above say that it is much better for them to be fined four annas on the rare occasions we are able to pound their cattle, than to employ a herd boy, and such being the case, I trust you will be good enough to cause the

63

fine to one Rupee. ~~60~~

With reference to Govt. Pro: No. 14081-91 dated the 20th Z.F 375-92
February last requesting to submit copy of Pound Rules and scale of feeding charges levied on impounded cattle together with a note of alterations proposed to be adopted under the new Regulation VIII of 1892, I have the honor to state that so far as can be gathered from the record

available, no Board rules have even been issued.

2 In 1885 Mr. Sneithlejohn the then Deputy Commissioner and District Magistrate called for the scale of feeding charges and revised the classification and rates only as regards the four Inamdar Talukas The scale then existed in the other Talukas was allowed to stand and it still continues. It cannot be ascertained when and by whom these rates were fixed.

3. The existing scale of the feeding charges

are given in statement
marked A

4. The Shimoga Municipality recommends an increase of ½ pies in the rate for buffaloes and adopts the existing rates in the other cases. Vide extract attached from the Pro: of the special meeting dated the 3d June last.

5. The Sagar Sub Division Municipalities recommend the rates as per statement marked B. Vide copy annexed of Pro: dated 2d June last.

6. The Local Fund Board recommends the revision of rates as per statement marked C. Vide extract appended of Proceedings dated the 3d Instant.
